Bridge project begins tomorrow on North Washington Street Interchange in Grand Forks

Construction begins tomorrow on the northbound and southbound lanes of the I-29 Bridge at the North Washington Street Interchange in Grand Forks. The project will include work on the abutments, guardrails and bridge deck. During the project, barriers will be in place separating the work zone from motorists and temporary lane closures will also be in place. Traffic speeds will be reduced through the work area for the duration of the project. Vehicles with wide loads will need to use an alternate route as a 12-foot width restriction will be in place during the project.

During construction:

- Lane closures will be present throughout the duration of the project
- Traffic speeds reduced to 40 mph through work zone
- A 12-foot width restriction will be in place
- Barriers will be in place separating the work zone from motorists
- Flaggers may be present to assist with traffic control

This project is expected to be completed in early October.
